30 UNI Students Help Workers Clean Up Debris

(Courier News Bureau)
CEDAR FALLS — "Cooperation" seemed to be the key word as 30 University of Northern Iowa students joined with University administrative officials in providing tornado clean-up for Maynard last week.

The volunteer brigade idea, conceived by sophomore Greg Anderson of Albert City Wednesday evening, soon spread through his Delta Upsilon Fraternity house and then to the University dormitories.

Help Offered

At 8:30 p.m. the volunteers called UNI president J. W. Mauer who offered University help and equipment including trucks, axes and chainsaws.

"The president's office contacted several people including the Governor's office to find out where help was most greatly needed," Anderson reported.

The next morning saw the volunteer band, bearing lunches from the UNI food service and gloves from the UNI physical plant, boarding a school bus for Maynard.

Accompanying the students were UNI landscape planner Ed Bailey; bus driver, Art Hoeppe-

ner; and UNI groundsman Rudy Bjorklund, George Garth, Tom Meyers and Henry Stuart.

Like Bombings

"It looked like pictures I've seen after a bombing," was one student's reaction to the sight that met them upon arrival.

The group set to work spending the day helping to clean brush and trees off the city's streets and sidewalks to make resumption of transportation possible.

"The work was long and hard," Ed Bailey, who served as supervisor, said, "but the boys did a wonderful job and the townspeople seemed impressed with their concern."
